

Mon. **One Week in the Life of Aahaan Singh.** Wherein he read *twenty* articles on the subject of **Music**, of which *four* were Interviews, *five* were Recommendations, *five* were Criticism, and *two* were Reviews. Wherein he read *seventeen* articles regarding The News, of which *eight* were regarding Politics and *five* were regarding Local Happenings. Wherein he read *eleven* articles on the subject of **Technology**, of which *four* were regarding Artificial Intelligence. Wherein he have this sense of excitement mixed with read *nine* articles on the subject of **Culture**, of which *three* were regarding Movies and *two* were regarding Stationery. Wherein that could have fitted the bill I just he read *six* articles on the subject of **The Arts**, of which have this sense of excitement mixed with *one* was a comic. Wherein he read *five* articles on the impotence that is hard to describe. The reason subject of **Sports**, of which *four* were regarding is that our subsidies and market rules encourage ever-larger farms to grow those two crops, even when doing so is below the cost of production. But the last three years tell a different story: one of form fading, masked by a few requests for comment. In a 2014 preface for his 1978 book *The Ohlone Way*, a description of how the indigenous peoples of California's Bay Area lived before Europeans arrived, Malcolm Margolin shared a list of what he thought constituted a healthy society. The Obama Presidential Center is intended to symbolize community empowerment, civic engagement, and hope; these are values that shaped Obama's presidency and continue to inform his legacy. Being creative today means seeing the world around you as a resource to fuel your inner entrepreneur. For me, good criticism guides the reader, whether by evaluating the music by a clear framework, providing context, or directing the reader beyond the limits of their experience. It's like God designed a world-class tennis player and forgot to add the ability to stave off calamitous mental implosion, or adequate bowel control. Deloitte will provide a partial refund to the federal government over a \$440,000 report that contained several errors, after admitting it used generative artificial intelligence to help produce it. **Tue.** It's hard to say for certain, but the whiff I get off it is that this is an attempt to do "object orientation by array(list)s." Don't give your pain the ending it wants. Things can snowball quickly and if you're not careful you can end up over budget and owning a pen shaped like a parrot. My decision-making process has to happen in such a way that I'm absolutely unaware of it, otherwise I'm objectifying a situation that demands something different. A new major Python release means an older release hits the end of its support lifecycle - in this case that's Python 3.9. **Wed.** My computer is not a terminal. The Beatles quit touring, and when that didn't work they broke up. The arguments lasted just under 90 minutes, and by the end, only Jackson seemed to be mounting a serious challenge to ADF's position. To be frank, and as previously noted, I am one of the frankest, it was a great day. People set up many barriers and halls-of-mirrors that are less about actual operational security, more about discovering and being discovered. He also believes that the US government's God-given responsibility is to "moralize a fallen world through use of force." She also wrote of plans to construct an airport and the largest Buddhist temple in the world, and to convince the Dalai Lama to declare her to be a reincarnated goddess. **Thu.** I was so shocked I didn't even think of taking a screenshot. In justifying its restraint, the University has often cited its commitment to institutional neutrality. Maybe the mid-30s are just hard for superstars. So anyway, I became a big fan of their work. They went overtime, and The Chameleons came and asked me to cut them off, but the crowd wouldn't have it, and Here played on. I can confirm firing loud sounds into your mouth while holding a tube with your teeth is a bit uncomfortable. I am not doing well—but who is, these days? Yep, you read that correctly, Wonderland 222 still has old school Tomoe River Tomegawa paper notebooks still in back stock. **Fri.** I realize it's easy to get blinded by the constant drumbeat of "gargoyle-like tycoon cabal builds 1GW data center" and feel that they will simply overwhelm the problem with money, but no, I'm afraid that isn't the case at all, and all of this is so silly, so ridiculous, so cartoonishly bad that it threatens even the seemingly-infinite wealth of Elon Musk, with xAI burning over a billion dollars a month and planning to spend tens of billions of dollars building the Colossus 2 data center, dragging two billion dollars from SpaceX in his desperate quest to burn as much money as possible for no reason. And ultimately, Missouri passed a ban on gender-affirming care for minors, with Reed's claims cited as justification. In Fortune, Sharon Goldman profiled the 23-year-old Leopold Aschenbrenner, who has one of the most man-of-his-times AI resumes I've ever seen. It's not ideal, having it be a little bit manual and janky in this way. See the good in that which is evil, and the evil in that which is good. I think that gave me a taste for classic songwriting. **A blue image of Australian twee pop band Batswing Saloon.** It might sound nice on paper, but it just can't work in the real world. Deleted rows are written to tombstone files as either a list of primary keys or a list of ranges. **Sat.** Her inswinger to right-handers left Pakistan gasping when she removed Omaima Sohail and the in-form Sidra Amin off successive deliveries, reducing them to ruins in the very first over. While I mentioned this project to friends, who were supportive, I never went into much detail, as I thought our ideas were not developed enough—I wanted to perfect them first before releasing them to the world. After the Hunt is one of those rare movies that shakes the network out of its addiction to Twitter "humor," and yet the result is no better; it's a movie seemingly designed to provoke a particular panicky, bad-faith interpretation in precisely the kind of person who has a Letterboxd account. I guess we cling to the notion that there are certain kind of activities or positions or graces that allow one to experience a sense of repair. Each track behaves like a shard from a different mirror. Different Class is an album that could have only been made by growing up in Sheffield but it is also an album that could have only been made by leaving it too. Dots or sixes. **Sun.** And, as a natural-born grinder, Welles must realize that his audience is made up largely of Facebook boomers who claim they want a new Bob Dylan, but in reality seek a folk-music version of a Bill Maher "New Rules" monologue that they can forward to disinterested family members with a "This!" caption. "We're really trying to get our wages to cover rent and food, because it's really shameful that I work full-time here and I'm eating myself out of house and home," McCarthy said. The song is released alongside another, **Whale Station.** Their team had diagnosed the problem, and the root cause was that sometimes the API would get confused about record ownership and identity. At least the artist raising the prices means that they will capture the value rather than a middleman. Providing users with the necessary tools to learn the routes and schedules of the shuttle system is a key factor in increasing ridership. When Rawal goes early, their average score crept up to 264.75. So while China imposed the controls on all nations, the U.S. response is especially important. Those guys fought a war against the most powerful empire in the world, and won, and they did so because they convinced each other a decade earlier, during deeply distressing economic times, that independence from a king was critical to their well-being and dignity as free people.

Agriculture's *The Spiritual Sound*. An immaculate grid whose solution is Clinton staffer Peter Daou.
